# O que é o VGP?

- O VGP é um programa realizado pela AAPG para que estudantes tenham a oportunidade de conhecer diferentes práticas e técnicas de Geólogos, Engenheiros e Geocientistas de alto nível técnico dentro da Indústria e Academia, desta maneira, poder analisar as opções que existem nas carreiras das ciências da terra.

**AAPG**

Young Professionals Brazil

# Objetivo principal

---

- O VGP tem como objetivo proporcionar à comunidade estudantil e universitária as ferramentas necessárias para melhorar a comunicação entre estudantes, membros, administradores universitários, e profissionais reconhecidos dentro da indústria.
- Fornecer um meio eficaz para proporcionar uma discussão em primeira mão sobre:
  - A situação atual da energia;
  - O papel da geociência na sociedade;
  - Novas técnicas, desenvolvimentos e recursos;
  - Ajuda industrial à educação;
  - Informações de interesse comum ao mundo acadêmico;
  - Diversas carreiras/especialidades dentro das ciências da terra.

## IN PERSON

### Visiting Geoscientist Program

Visiting Geoscientists are industry experts who are excited to share their professional experience in classrooms across the globe.

Speakers are available to talk on many petroleum geology and geoscience topics including: environmental geology, energy minerals, hydrogeology, oil and gas, unconventional resources and climate change, as well as many other industry-related topics.

Visiting Geoscientists are available to visit over one or more days. Talk offerings may include one or more of the following:

- An introductory meeting with the head of the geology department, dean of the college and other administrators.
- A presentation on geoscience careers to a combined group of students and professors, followed by a question and answer session.
- A technical talk or short course.
- An open meeting with small groups and faculty members and/or tour of classroom laboratory and library facilities.
- An interview with local and campus news media.
- A final luncheon or wrap-up session with students and faculty members.

Consider choosing two or more of the options above to maximize the impact of your VG visit. Exposure across multiple offerings may help students decide whether a career in geoscience is right for them. Informal discussions between VGs and students receive the highest rating in program evaluations.

# Como solicitar um VG

## Visiting Geoscientists

### Samir Abdelmoaty

Rockhopper Exploration

**Travel Limits:** Egypt

**Talk Titles:**

- Egypt Petroleum Industry and Basic Economics
- Petroleum Agreements

### Vitor Abreu

Abreu Consulting and Training, Consultant, Houston, Texas

**Travel Limits:** Latin America and Caribbean Region, Africa, Asia Pacific, Europe and North America

**Talk Titles:**

- A Simplified Guide For Sequence Stratigraphy: Nomenclature, Definitions and Method
- Deep Water Stratigraphic Traps: A Risky But Highly Rewarding Global Play Type
- Recent Advances in Deep Water Depositional Models: Impact From Exploration to Production

### Adeolu O. Aderoju

DextolGb Geophysicals

**Travel Limits:** Africa

**Talk Titles:**

- Short Course/Workshop: Software Efficacy – Comparison between Software and Manual Analysis of a Seismic Refraction Survey Data
- Living Geosciences: If you are convicted for being a Geoscientist, will there be enough evidence to arraign you in Court?
- Niceties of Making the Best out of University as a Geosciences Student.

### Nadeem Ahmad

Pakistan Petroleum Ltd

**Travel Limits:** Pakistan, United Arab Emirates, Oman, Saudi Arabia, Iraq

**Talk Titles:**

- Business of Exploration & Production in the 21st Century
- Play Fairway and CRS Mapping for Play-Based Exploration
- Prospect Generation in Structural and Stratigraphic Plays and Probabilistic Resource Assessment
- Well Logs and Seismic Sequence Stratigraphy

- Conheça os VGs e selecione um em:

<https://www.aapg.org/career/training/in-person/visiting-geoscientists/vgs-available>

- É importante saber quais são os limites geográficos de cada palestrante. Essa informação pode ser confirmada nos dados do palestrante, em “Travel Limits”.

### Cleveland Jones

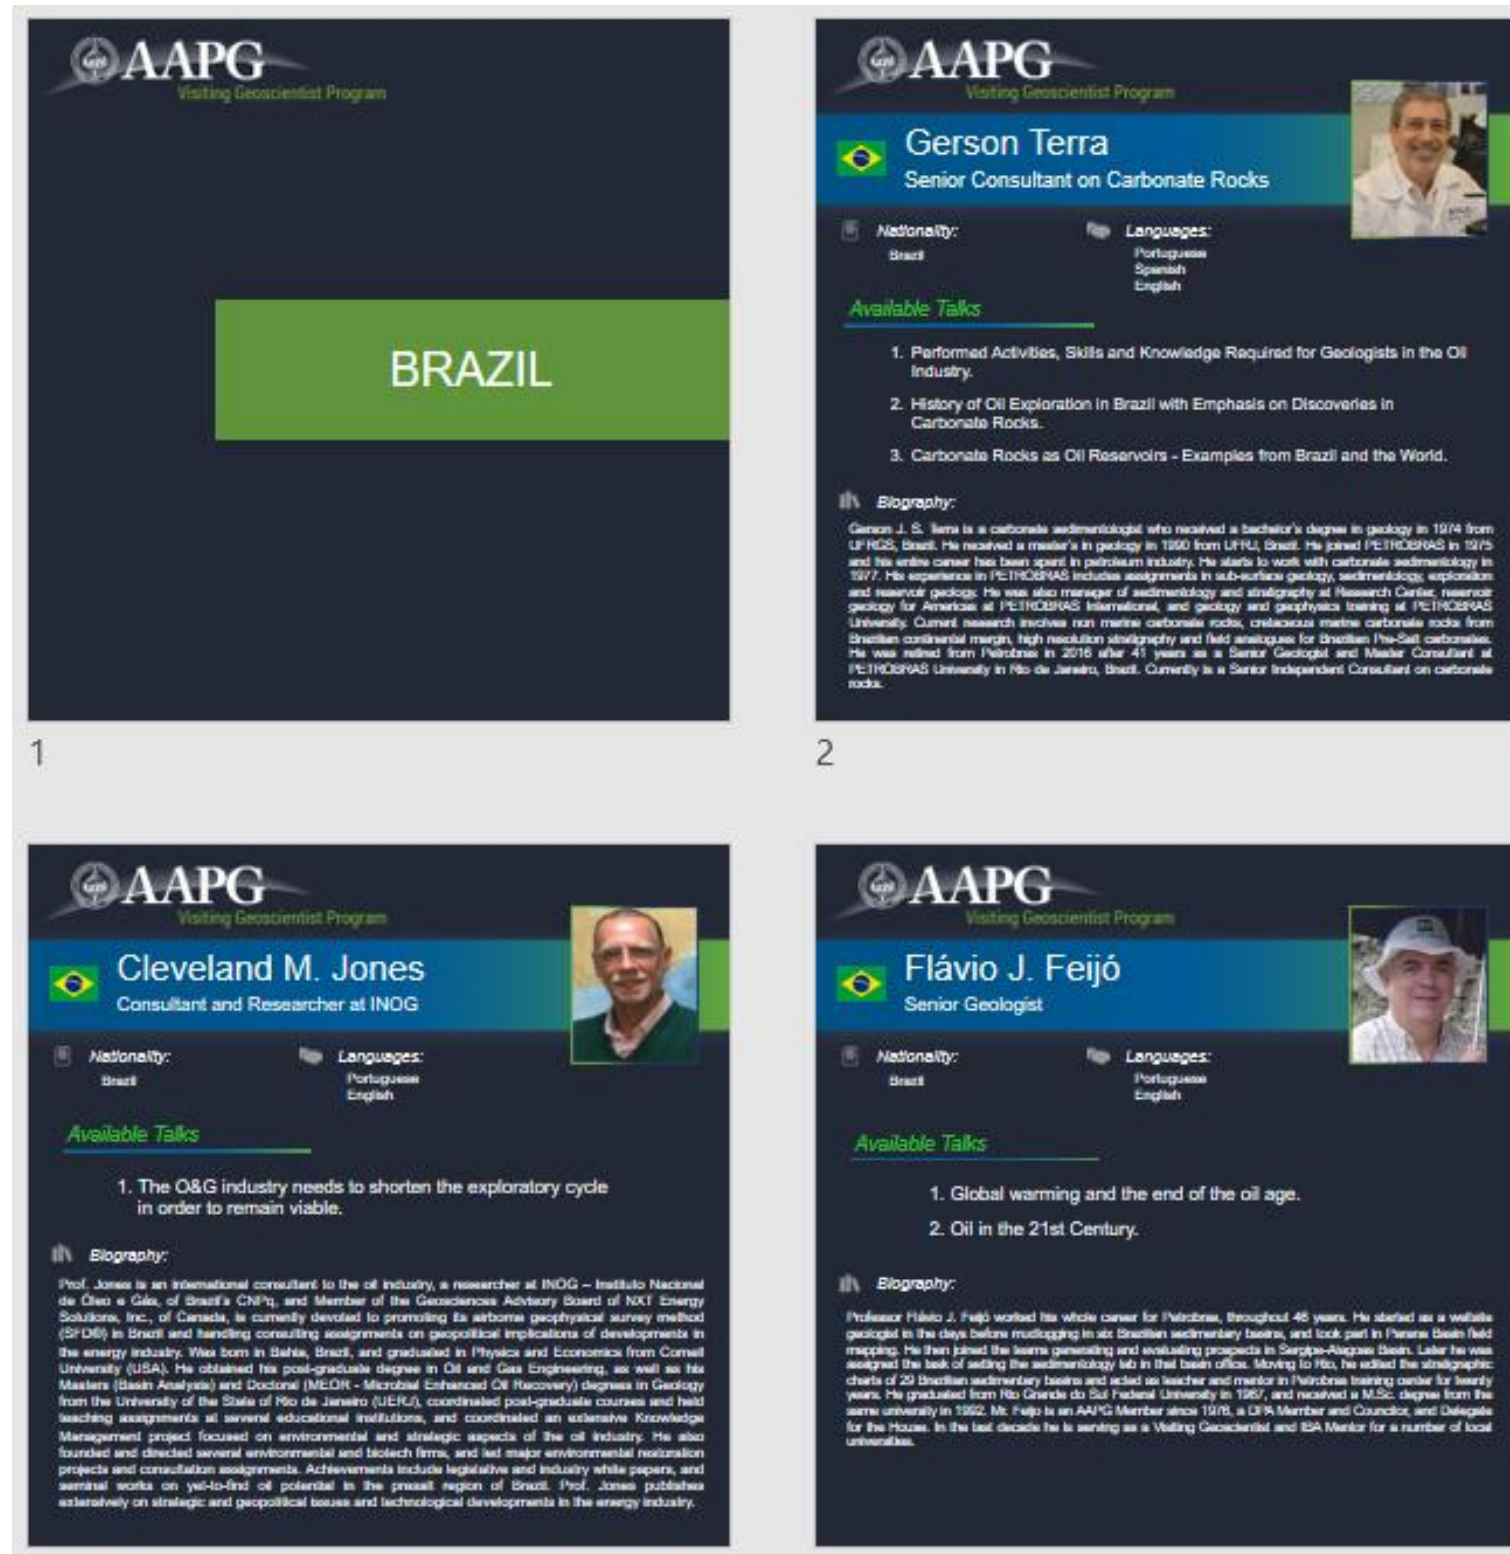

National Institute of Oil and Gas(INOG)/State University of Rio de Janeiro(UERJ)

**Travel Limits:** Latin America, Africa (Portuguese speaking countries)

**Talk Titles:**

- Geopolitics of Energy
- New Geophysics Tools to Revolutionize the Exploration Process
- Yet-to-Find-Oil Potential of the Brazilian Presalt

# Como solicitar um VG

- Para facilitar a escolha do VG, será disponibilizado um catálogo atualizado com os VGs ativos na região e todas as conferências disponíveis e atualizadas.

# Como se tornar um VG

---

Para se tornar um Visiting Geoscientist deve-se:

- Ser **membro atual da AAPG**;
- Ter **5 ou mais anos** de experiência como geocientífico;
- Atuar na área da Geociência;
- Ser interessado em incentivar o desenvolvimento da carreira em geociência;
- Fazer pelo menos um visita por ano fiscal;
- Preencher o formulário de inscrição para VG da AAPG.

# Como se tornar um VG

The screenshot shows the AAPG website's 'IN PERSON' section. The main content area is titled 'IN PERSON' and features the 'Visiting Geoscientist Program'. It describes the program as a way for industry experts to share their experience in classrooms. A list of activities is provided, including introductory meetings, presentations, technical talks, open meetings, interviews, and luncheons. A sidebar on the right contains links to 'Login to Subscribe by Email', 'VG Evaluation Forms', and 'VG Pages'. The 'VG Pages' section includes links to 'VGs Available', 'VG Request Form', 'Become a VG' (highlighted with a yellow box), 'VGP SIG', and 'VGP in the News'. A yellow arrow points from the 'Become a VG' link to the right.

## VISITING GEOSCIENTISTS

### Become a VG

To become a Visiting Geoscientist an individual must be:

- Be a current AAPG Member.
- Have five or more years of geology experience.
- Active in the petroleum geology field.
- Interested in encouraging career development in geology.
- Make at least one visit per fiscal year.

If you can meet all of the above requirements, we want to hear from you!

Fill out the AAPG Visiting Geoscientist Application [here](#).
